LOCAL 1466

UNITED ELECTRICAL, RADIO AND MACHINE WORKERS OF AMERICA

PREAMBLE

We, the members of the United Graduate Workers of University of New Mexico (United Electrical Workers Local 1466), recognize that we can improve our living and working conditions only when we organize ourselves to counteract the inherent power of our employer. We, therefore, pledge ourselves to struggle for and defend the right of all graduate student workers to fair and equitable working conditions.

As employees of The University of New Mexico (UNM) and workers in the academy, we insist on the right of all graduate workers to democratic participation in university governance, and we commit ourselves to fight for higher education that is accessible to all, regardless of class or income; race or ethnicity; sexual orientation; gender; family planning status; HIV, immigration, or disability status; national origin or citizenship; age; and religious or political beliefs or affiliation. We call for renewed public commitment to creating conditions conducive to quality research and education and support for all academic workers.

As part of the international labor movement, we take our stand with all workers in the struggle for a higher standard of living and democratic control over the conditions of our lives.

In that spirit, we co-create a rank-and-file organization dedicated to aggressive advocacy for our members' rights.
